A PRODUCT OF GB CORPORATION

GB HIGH TEMPERATURE GREASE EP250

GB High Temperature Grease EP250 is a high performance, versatile, long life EP grease. It is based on high viscosity index mineral oil and a Lithium Complex thickener and contains latest additive technology to offer high temperature oxidation performance, anti-wear and anti-corrosion properties.

GB High Temperature Grease EP250 provides reliable and consistent performance in applications of :

- High loaded equipment
- Bearings running in medium to high speed
- High temperatures
- Wet or dusty environment

THE ADVANTAGE

GB High Temperature Grease EP250 is a Lithium Complex grease which gives more benefits over regular Lithium grease in areas of:

- Cost Savings from reduced grease consumption due to:
 - No leakage at high temperature (>120C)
 - Excellent resistance to water washout
 - No softening/leakage under vibrations & mechanical stress due to good mechanical stability.
- Lower total labour cost due to extended lubrication intervals & less downtime

Performance levels

- Longer wheel bearing life due to low wear
- Protects against corrosion
- Operates over a wide temperature range
- Lithium based, making it compatible with the majority of grease used

Typical Characteristics

- **Thickener:** Lithium Complex
- **NLGI:** 3
- **Dropping Point:** 250C min
- **Operating Temperature Range:** -20C to 180C **Base Oil Viscosity:** 220cst@40oC; 18cst@100oC
- **Extreme Pressure:** XXX
- **Water Resistance:** XXX
- **Relative Service Life:** XXX
- **Colour:** Dark Blue

Product Information

A PRODUCT OF GB CORPORATION

Applications

- Bearings, Chassis: Trucks, Road Vehicles, Forklifts. Can be used for Wheel Bearings (tapered & rolling), Chassis Points, Universal Joints, Cable & Throttle linkages, King-Pin Front Suspension Joints, Spring Shackles, Steering & Transmission Joints
- High Temperatures, Wet/Dusty environment: Fans, Blowers, Pumps, Conveyors (all at high temperatures). Can be used for Water-Pump Bearings
- High loaded equipment & bearings: Conveyors, Forklifts, Stirrers & Mixers
- Medium to high speed bearings : Electrical Motors, Pumps. Can be used for Generator Bearings

Available pack: Pail 15kg
